## SUMMER INTERNSHIP EVALUATION FORM

Faculty: Medicine, Year: 5

Duration: 4 weeks (120 hours), ECTS: 4, including:

2 weeks (60 hours), Scope: Intensive care

2 weeks (60 hours), Scope: Gynecology and midwifery

| Practical skills                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               | Learning outcomes | Points (0-1 point)* | Confirmation of completion by the internship supervisor (stamp and signature) |
